

## **Job post summary for EL Assistant**

**Date posted:**

**Pay:** From \$40,000

### **Job description:**

The Innovative School of Temple Beth Sholom on Miami Beach is seeking an energetic, dynamic, reflective and intentional Assistant Elementary Level Educator. We are a Reggio-inspired school, which means that we value a learner-centered approach in our classrooms. Our educators should be excited by this approach and have a passion for child development and how children learn.

The Assistant Teacher is a vital member of the teaching team at The Innovative School. Assistant Teachers work in collaboration with Lead and Associate Teachers to maintain daily classroom routines, transitions, and care of their surroundings. By building relationships with learners, Assistant Teachers understand their interests and curiosities as well as how they learn best. Their observations and insights contribute to decisions about curriculum, teaching styles, and experiences co-constructed by learners. Assistant Teachers share the responsibility of Lead Teachers to support learners' growth across social, emotional, and cognitive domains.

The Assistant Teacher brings educator experience, interpersonal skills and a desire for professional growth to contribute to a school culture rooted in joyful learning and academic excellence. They will embrace and model the school's KEHILLA values— kindness, empathy, honesty, integrity, acceptance, and lifelong learning—as is expected of all members of the broader school community. Assistant Teachers will demonstrate openness to observation and feedback and willingness to grow as a collaborative, reflective educator.

Position designation (Lead, Associate, Assistant) is determined by a combination of skill level, experience in our program, level of education, certification, and professional goals. While Lead Teachers carry greater responsibility in curriculum development, documentation, and communication with families and support specialists, all educators are expected to contribute equitably to daily classroom responsibilities.

For additional information contact Julie Basner, Director of Teaching and Learning, at 305-532-4756 or [julie@innovativeschool.org](mailto:julie@innovativeschool.org).
